District 17 District Director Report

April 2026

Three quarters of the year have gone, and District 17 and clubs within it have done astonishingly well to be where we are.

Thank you to all Club Officers and all District Officers, for doing such a stellar job in supporting your members and the District.

The three pillars of District success are (1) Paid Clubs; (2) Membership Payments, and (3) Distinguished clubs.

We concluded the March Quarter with 61 clubs, which is growth of three clubs.

We currently have 94% of last year's payments, with more to come in the next three months.

And we have 12 clubs already meeting minimum requirements for at least Distinguished status, and a further 20 clubs on target to reach Distinguished this year.

We are also proud to have two Smedley Distinguished club in the District: Canning Vale and Victoria Park Toastmasters Clubs, with several more almost there.

With only three months left in the year, District and Club leaders need to assist all our members in achieving their personal Communication and Leadership goals. Together we can all achieve success.

Strong members, strong clubs, strong district.

District 17 Program Quality Director Report

May 2026

We are 10 months into the 2025-2026 program year and so much has been accomplished. Most recently we completed Round 2 Club Officer Training, additional District Officer Training, all Club, Area and Division contests for International and Evaluation Contests, ran a workshop on Leadership opportunities, promoted our Conference *Bridge to the Future*, launched our inaugural March to Distinguished Honour Roll and most recently conducted our first Pathways Power-UP sessions. After a joint effort with the TRIO to encourage clubs to renew as many members as possible, we are now focussed on supporting clubs to get Distinguished or higher in the Distinguished Club Program (DCP) by 30 June.

Most clubs have been active in submitting Pathway Awards, especially during the Go for Winter Gold incentive campaign. Education goals are key to a club achieving distinguished or higher. CONGRATULATIONS to our first two clubs to achieve the highest award in Toastmasters, the inaugural Smedley Distinguished Award, - Canning Vale Toastmasters and Victoria Park Toastmasters. Several other clubs have achieved all 10 DCP goals or already have more than 25 members post the April renewals so will soon be on the honour roll. Who will join them?!

Remember, this level of proactivity and engagement across the District helped contribute to Toastmasters International decision in December 2025 to allow District 17 to remain independent and not be merged with another District, unlike many other similarly sized Districts around the world. But we can't rest on past achievements. We need to continue to demonstrate that our District can grow and help all clubs in achieving excellence. The best way to achieve this is promoting and supporting clubs to achieve Distinguished or higher as it drives clubs to support their member's education goals, provide a quality member experience so they will renew, to follow-up guests and grow their membership and have officers participate in training and complete their administration goals.

Hence, the final 2 months of the Toastmaster year for Program Quality is focussed on the following:

Role and Responsibilities of the PQD

- Ensure the quality of club meetings and member experience – providing Pathways learning support from our Pathways Champion, sharing success stories through Maali News, introducing the Vintage Paths option, and supporting club visits / milestone celebrations
- Oversee education and training programs for club and district officers – share recordings of Pathways Power-UP Series, conduct Club Officer Training for our newest club – Carpathian, and running how to become distinguished strategy sessions with individual clubs that are close but not yet there
- Support club growth through quality initiatives – recognising clubs who make it onto the March to Distinguished Honour Roll, supporting the Final Push incentive program

- Plan and execute district-level events such as contests and conferences – conduct the District finals for all four contests and support success of the D17 Conference – Bridge to the Future – 22-24 May
- Collaborate with other district leaders to achieve Distinguished District goals – supporting new club demo meetings and existing club open houses, and promoting continued member renewals and new members recruitment to meet member goals for DCP eligibility.

- **March to Distinguished Honour Roll**

- Clubs that achieved Distinguished or higher by April 17 received a \$100 conference voucher for members who have never attended a Toastmasters conference.
- We've added information on the requirements for the DCP to further educate clubs and inspire them to get creative on ways to help members complete levels sooner i.e. Speakathons, visiting smaller clubs, study sessions and to help them achieve their membership goal for eligibility.
- 20 clubs made the Honour Roll by 17 April – Congratulations! Several more are only one award or a few members short of qualifying.
- Our goal is to get 35 clubs on the Honour Roll before 30 June – will your club be one of them?

District 17 Club Growth Director Report

April 2026

Go for Winter Gold Campaign

The Go for Winter Gold campaign concluded successfully on 15 March 2026 after a highly engaging month-long initiative across the district. The campaign generated strong participation and enthusiasm among clubs and members. Massive congratulations to the top three winners across all three tiers for their outstanding achievements. Special recognition goes to Toasting Human Energy for delivering the most accurate prediction of medals at the Winter Olympics, and to Victoria Park Toastmasters Club, which won the lucky draw among clubs that achieved 80% renewals during the campaign. Overall, this initiative played a significant role in boosting engagement and supporting renewal efforts.

New Clubs

District 17 has continued to demonstrate encouraging growth through the addition of new clubs. The City of Fremantle Toastmasters Club got the year off to a great start by being the first club to be chartered in September 2025. Sangam Tamil Toastmasters Club, which was chartered in November 2025, and Technology Toastmasters Club, chartered in March 2026, are also valuable additions to the district. In addition, Carpathian Toastmasters Club has submitted all required documentation and is currently awaiting final processing, with chartering expected in April 2026.

Upcoming Clubs and Leads

There is a strong pipeline of upcoming clubs and prospective leads across the district. Presentation Masters, an online advanced club focused on delivering longer and more specialised speeches from programmes such as The Successful Club Series, the Leadership Excellence Series, and the Better Speaker Series, is progressing well and is currently just two members short of reaching the required charter strength. A demonstration meeting was conducted with Canning College in March 2026, and discussions are ongoing to establish a club within the institution. Similarly, a demonstration meeting with Home City Church was met with a very positive response, and work is underway to finalise the steps towards chartering. Furthermore, an introductory meeting has been scheduled with Rio Tinto, with the expectation that this will lead to a demonstration meeting and potential club formation.

Club Renewals

With regards to club renewals, District 17 currently has 61 clubs, of which one club is not in good standing. Efforts will be put towards addressing this. By supporting this club to return to good standing, and with the anticipated chartering of Carpathian Toastmasters and Presentation Masters, the district is well positioned to achieve Smedley Distinguished status in the Club Growth goals.

Member Renewals

Member renewals remain a key area of focus for the district. As of 5 April 2026, District 17 has achieved 2,126 renewals compared to a base of 2,266 from the previous year. To reach Distinguished status, the district requires a total of 2,289 renewals, which means an additional 163 members are needed. To achieve Select Distinguished, 2,334 renewals are required, representing a shortfall of 208 members. President's Distinguished status requires 2,389 renewals, which is 263 more members, while Smedley Distinguished status requires 2,448 renewals, meaning an additional 322 members are needed. Continued effort in encouraging late renewals and membership growth will be critical in closing these gaps.

District Realignment

In preparation for future growth, the district has undertaken a realignment of clubs. This includes the addition of four new clubs and a strategic reshuffling of existing clubs to improve balance and support. A new Area has been created within the Southern Division to better accommodate growth. As a result, District 17 now consists of four Areas in the Central Division, four Areas in the Northern Division, and five Areas in the Southern Division. This revised structure is designed to strengthen leadership capacity and enhance support for clubs across the district. Attached is the proposed new realignment of clubs for approval and acceptance.

Summary and Key Focus

In summary, District 17 is making solid progress towards its growth objectives. The success of the Go for Winter Gold campaign, the steady addition of new clubs, and a strong pipeline of prospective clubs all position the district well for success. The immediate focus will remain on increasing member renewals, supporting all clubs to achieve good standing, and converting current leads into newly chartered clubs. With sustained effort in these areas, the district is well placed to achieve its Smedley Distinguished goals.

Sandgroper

Club has always been skeptical of Pathways and resistant to the education program offered by Toastmasters. This feels like it is driven by club leaders who have been Toastmasters for a long time and prefer the booklet method for learning opposed to a digital online version.

After attending a few emergency meetings to determine the club's future, it has been resolved that they'll need a pathways champion and potential club coach as they continue as a club for at least the next 6 months. I have every faith that the club will survive and be a thriving club 6 months from now. For a club that chartered 50 years ago, it would be a shame if we can't hold it together. I look forward to working with Sandgroper to achieve this. And look forward to joining them for their 50 year celebration on May 11th.

Northern Gourmet

Club is struggling to keep members but have returned over 8 renewals to remain a club in good standing. Members stepped up to help facilitate and host the Area Final and were very helpful in bringing the area together. After speaking with some of their members, I hope the Area Final helped retain some of their new members who were skeptical about what Toastmasters is about. I will try to attend an upcoming meeting to further recognise the leaders who were instrumental in assisting with a successful Area Final.

Northern Lights

Participants stepped forward to compete in Area Final, club sent Judges, Timers and Spectators. Extremely helpful and keen to participate when called upon. I will attend an upcoming meeting to further recognise the leaders that have been so helpful to me in my role.

Butler

Attended and supported the club's contest. Vibrant and well attended club with a group of leaders who are vital to establishing a healthy culture with Pathways and the Toastmasters Education Program. Extremely helpful and experienced club in supporting the area final.

Currambine

Have reached out to this club a few times with requests for helpers at Area or Division contests. Not a lot of responses. Club did not put any competitors up for Area contest, but there may have been one or two members attend as spectators. Will try to attend an upcoming meeting to check in.

Canning Vale Toastmasters Club	Round 1: 19/08/25 Round 2: 24/03/26	CVTM exceeds expectations. Longstanding members govern the club, with mentoring of newer members to take on roles. Guests feel welcome, are given a buddy member to sit next to for guidance on the meeting.
Harrisdale-Piara Waters Toastmasters Club	Round 1: 20/08/25 Round 2: 25/02/26	HPWTM runs well as a club, with many guests becoming members in every subsequent visit I make. Newer members are brought into committee roles and mentored. Good direction and leadership.
Melville Toastmasters Club	Round 1: 28/08/25 Round 2: 26/03/26	I visited Melville for their Christmas meeting, and more recently their club contest. A smaller but lively club with veteran members present. Noticed some new members that have joined since I last visited.
Murdoch Southsiders Toastmasters Club	Round 1: 26/08/25 Round 2: TBC	Have not visited Murdoch in 2026, but they are a club in good health with enthusiastic, longstanding members that support it. A good turnout of non-contestant club members for the Area Contest on the 8 th of April 26.

Club Name	Visit Date	Notes/Issues
Blackwood Valley	15/01/2026	Club is challenged attracting guests, but is maintaining numbers and is second most stable in numbers in the Area. Needs a few more members to qualify for Distinguished.
Bunbury	03/02/2026	Some club officers are not promoting Pathways, which results in the club not having any goals and not converting guests to members and not retaining members.
City of Fremantle	25/03/2026	Enthusiastic but much lower attendances at meetings than last year a number of non-renewals. AV quality in meeting room is too poor for online attendance.
Donnybrook Gourmet	14/01/2026	Strong club growth this year and renewed submission of Pathways educational achievements. Striving for returning to Distinguished Status
Jetty	19/01/2026	Steady in meeting quality but not promoting Pathways and not retaining members. Will not maintain Distinguished status without significant input on membership.
Touch of Gold	28/02/2026	ToG is clearly meeting all Pathways objectives, conducting contests and enthusiastic, however has stumbled in its membership drive and retention. Will have adequate DCP but will be challenged to retain Distinguished status because of membership numbers.

Success Stories

Club Name	Notes/Issues
Blackwood Valley	Hosted Joint Club Contest for BVTM/DGT. Maintained Membership because hybrid format is maintaining membership through online-only members.
Bunbury	Consistent high guest numbers. Conversion to members is very low
City of Fremantle	Maintaining Enthusiasm. Meeting attendances still high, but definitely lower than last November visit. Renewal challenges were surprising. Follow-up underway
Donnybrook Gourmet	Club Growth because hybrid format is maintaining membership through online-only members, plus some inaugural Blackwood members have returned to the Donnybrook club (says a lot for Blackwood maintaining numbers with the exodus.
Jetty	Good guest numbers. Retention issues.
Touch of Gold	Hosted the Area Contest. Had 16 Guests travel between 500-900kms to attend.

Other Information or Comments

Club Name	Notes/Issues
Blackwood Valley	Club is stable through cross membership with DGT
Bunbury	Paul Foley is lone voice on this committee – needs support and fresh club officers. RL/MG attend every second meeting to provide support.

City of Fremantle	Club appears enthusiastic and capable, but AV is poor for online attendance, so my presentation comprehension was very challenged and interp is very limited by only a 55-minute visit once in 6 months. Feedback here required from club coaches/mentors.
Donnybrook Gourmet	Club is stable through cross membership with BVTM
Jetty	Need IT friendly club members to provide Pathways leadership.
Touch of Gold	Club will need significant support from July 1 st when David is no longer a club officer.

EXTRA NOTE: Club members have already voiced their concerns over travel distance to meetings for the Blackwood, Bunbury, Donnybrook and Jetty clubs where more than 50% of meeting attendees are travelling more than 50kms to attend meetings, due to fuel related concerns.
